SUMMARY

Passionate and detail-oriented Web Developer with hands-on experience in designing, developing, and maintaining responsive websites and web applications. Skilled in front-end and back-end technologies including HTML, CSS, JavaScript, React, Node.js, and Express. Adept at turning ideas into functional, user-friendly digital experiences. Strong problem-solving skills, teamwork, and a commitment to writing clean, efficient code to deliver high-quality projects on time.

TECHNICAL SKILLS

Android	React js	Mongo DB & Firebase	Spring Boot & MySql
Java	Html & CSS	Express & Node js	Room DB
Kotlin	Java Script	SQL & Clouldinary	

APPRENTICESHIP & TRAINING

Full Stack Web Development Training | Ducat School of AI 6 month

- Completed comprehensive training in Full Stack Web Development with a focus on React.js for front-end and Node.js + Express.js for back-end development.
- Learned to build responsive and dynamic web applications using HTML5, CSS3, JavaScript (ES6+), and React.js.
- Implemented RESTful APIs and CRUD operations using Node.js, Express.js, and MongoDB (MERN Stack).
- Developed reusable UI components using React Hooks, Context API, and React Router for single-page application routing. Integrated Axios for API communication and handled authentication & authorization using JWT and cookies.
- Used Git and GitHub for version control and project collaboration.
- Gained exposure to deployment workflows using Vercel, Render, and MongoDB Atlas.
- Followed best practices for clean code, responsive design, and state management to build scalable applications.

PROJECTS

Learning Management System (LMS)

- Designed a responsive user interface using React.js, Tailwind CSS, and React Router DOM for seamless navigation. Implemented role-based authentication (student/instructor/admin) using JWT and protected routes.
- Integrated RESTful APIs for user registration, login, and course data retrieval using Axios.
- Built dynamic dashboards for students and instructors to manage courses and track learning progress.
- Utilized React Hooks (useState, useEffect, useContext) for efficient state management and interactivity.
- Integrated file upload functionality for instructors to add learning materials and video content.
- Applied MongoDB, Express.js, and Node.js (MERN Stack) for backend and database connectivity (if applicable). Deployed the application using Vercel (frontend) and Render (backend) for live demonstration.
- Technologies Used:**
React.js, JavaScript (ES6+), Tailwind CSS, React Router, Axios, Node.js, Express.js, MongoDB, JWT, Vercel/Render.

EDUCATION

Bachelor of Computer Application (BCA) 07/2019 – 01/2023

MJP Rohilkhand University Bareilly Utter
Pradesh

ADDITIONAL INFORMATION

Languages: English, Hindi

Operating System: Parrot OS , Window(11) OS , Ubuntu OS
